Membership in the CIPS-FIPS-Mouche

Dear Mr. President and members of the board,

in succession of the CIPS founding member Verband der österreichischen Arbeiter Fischereiveine – VÖAFV, the Austrian Match-Angling Association asks for the membership in the CIPS from 2018 onwards.

We will continue the successful work of the VÖAFV, as we have organized all the sport activities of Austria during the past seven years and now take a step forward. Therefore we ask for the membership in the FIPS-Mouche too. The letter of recognition and the application for membership in the CIPS itself is sent with same post. We ask for your positive vote for our application.

As soon as the AM-AA is accepted as a full member by the CIPS Congress of 2018 in America, we will take the next step in our way forward and work for the official recognition of angling as a sport in Austria.
